Step 2. Grab any wire on the top panel and turn it like the page of a book. This should look like Figure B.  
Then grab the steel crate with both hands and pull upwards.  
This will form the top and sides (shown in Figure C).

Step 3. Reach in the crate and pull the end panel forward (shown in Figure D) until it fits into the clips on the ends of the side panels.

D.

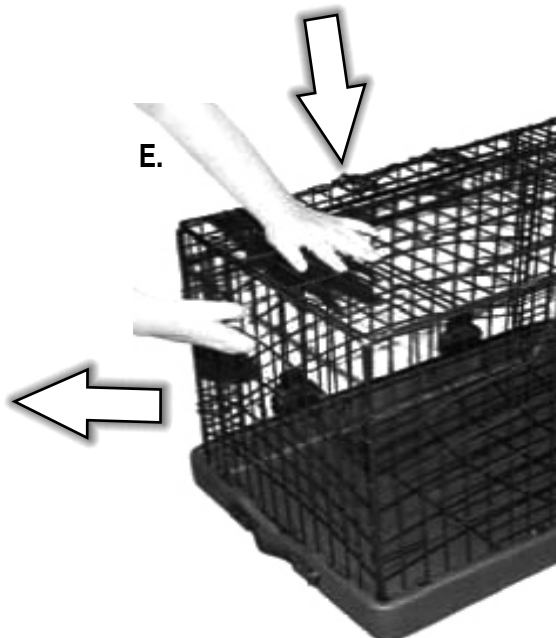

Step 4. To secure the end panel to the top panel, gently pull forward on the end panel while pushing down on the top panel.

Then, fit the hooks over the end wire on the top (shown in Figure E).

Step 5. Repeat Steps 4 and 5 with the other end panel.  
To disassemble, reverse this process.

## TO USE “THE OTHER DOOR”

**Step 1.** To lock “The Other Door,” align latches with their corresponding slots and push down on both latches till you hear them click into the secure position (shown in Figure F).

**Step 2.** To open and put up “The Other Door,” press the tabs inside the latches and pull up on latch (shown in Figure G).

Swing door out and push into the top slot.

**Step 3.** To put door down, just reverse this process (Step 2 then 1).

## TO USE THE TOP DOOR

**Step 1.** Stand beside the crate; the side that is closest to the latches works best.

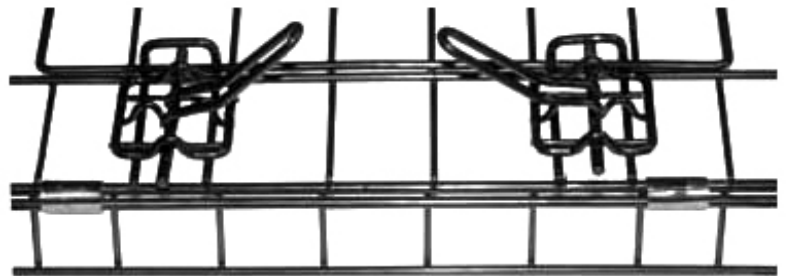

Lift up latches and slightly tilt them towards each other at a 45 degree angle (shown in Figure H).

**Step 2.** Pull latches towards you until they are no longer touching the top door.

Lift up on door to open.

**Step 3.** To close door, just reverse this process.
