Step 1. Open both sides of wire frame.

Step 2. Insert wire into connector near the center of front and back sides.

Step 3. Velcro inner panel to support wire and velcro all tabs along sides to secure cover to the frame.

Step 4. Place Pro Pawty on littertrax mat.

Step 5. Unzip door to access litter box for easy cleaning.

TIPS FOR GETTING CATS TO USE PRO PAWTY

Once the Pro Pawty is assembled you may want to leave the front door unzipped for a day or two, just to make sure your cat knows where their litter box is. After the cat uses the litter box inside the Pro Pawty a few times, they should be comfortable using it and the zippered door can be closed.
